Unified Talent Management

Manage clinicians, credentials, documents, and pay packages in one place with automated reminders, verified credentials, and audit-ready records that eliminate manual follow-ups.

Smart Match Engine

AI-driven matching assigns the right candidate to the right job instantly across Travel, PRN, and Locums with real-time availability, credential validation, and customizable distribution rules.

Built-In Credentialing Automation

Integrated credentialing and compliance workflows ensure every candidate meets healthcare regulations automatically—from license and document tracking to facility alerts.
